Dept. 2439 Bloomington, Ill.

Henry Faseler was a business call-  
er at this office Monday and moved  
up his date another year. Mr. Fase-  
ler's visit was the most cheering one  
we have had since the cotton crop  
went flume in early July. When we  
started in to console with him over  
the disaster to that crop, he informed  
us that he quit trying to raise cot-  
ton several years ago. Instead of  
staying to grow cotton to feed boll-  
weevils, Mr. Faseler has built up a  
nice little herd of Jerseys that every  
two weeks bring him in a nice check  
for milk picked up at his door every  
morning by a truck on a milk route.  
The same truck delivers ice into his  
ice-box at 35c per hundred pounds,  
and he is thus enabled to preserve  
any surplus he may have until profit-  
ably disposed of, either through sale  
or use on the farm. A flock of 200  
white Leghorns supply enough eggs  
for market to meet the family's cur-  
rent needs at cash prices from the  
merchants and he runs no long-time  
store accounts to be paid by the fall  
cotton crop. His labors in the field  
are confined to growing feed crops  
for his stock and garden and orchard  
crops for his family use. Mr. Faseler  
told of this in a modest way and will  
probably be surprised at all this  
noise, but he is a man who has set  
the pace in what we of this section  
are going to have to do—get away  
from dependence upon cotton—be-  
fore our country will enjoy the pros-  
perity of which its natural resources  
entitle us.  
Among the college crowd leaving  
for their respective schools are: Joe

Station; Victor Wiemers, Heiminia  
Nester, Alice Muennink and Milton  
Falkenburg to Lutheran College, Se-  
guin; and John Finger, St. Edwards

dents who have already gone are  
Pauline Murray, Alamo Business Col-

## DID YOU EVER STOP TO THINK

By Edson R. Waite, Shawnee, Oklahoma

G. C. JONES, EDITOR OF THE DAILY COURIER OF  
ORANGE, (N. J.), SAYS:

THAT home buying is so much more fun. One goes out with  
one's money in one's pocket bent on getting the thing one wants.  
One walks into a store and meets a courteous salesman who wants  
to please us. And all the while we have a friendly little chat about  
things we are both interested in. If he hasn't just what we want,  
we go across the street to another store and there go through much  
the same pleasant experience.

When I reach home I find I have acquired two things. The  
article I wanted and a friendly interest in the affairs of my neigh-  
bors, the storekeepers. And in addition, I am reasonably sure that  
they have some such interest in me. Nor am I sure which is the  
most important, to have had the pleasure of spending my money  
for what I wanted right in town, or to have had my little local  
horizon broadened to include a bit more of the community.

The odd part is that I find Mrs. Jones has exactly the same  
reactions," say both of us, "should we go miles and miles and miles  
to the big city to buy the same standard brands that we can get  
for the same price much more comfortably from the nice people  
at home who are as much a part of this community as we are?  
These people own property, pay taxes, employ help, support our  
welfare work and our lodges and churches and civic societies, are  
members of the Chamber of Commerce and are always seeking to  
boost our community. Why, then, should we mail a check to a  
mail order house for something we can't see till we get it, when  
our own friends can hand us just what we want when we want  
it? Or why should we spend so much time and money going to  
the big city?"

THE ANSWER IS "WE BUY AT HOME FROM OUR OWN  
NEIGHBORS"—AND ITS LOTS MORE FUN!

ARE YOU DOING THE SAME  
THING WHEN YOU BUY  
YOUR PRINTING?  
IF NOT, LOOK AT THE FUN WE ALL MISS!

## MR. DILLON TELLS ABOUT THE HIGHWAY MEETING HELD IN ALPINE.

This meeting was represented by  
all counties from San Antonio to El  
Paso. There will be a Motorcade to  
start in San Antonio, October 21,  
passing through Medina County the  
first day; stopping in Del Rio on the  
night of the 21st. The next night  
will be spent in Alpine, and then on  
to El Paso to participate in the West  
Texas Chamber of Commerce Con-  
vention, to be held there October  
21-26.

The people of Medina County are,  
or should be, vitally interested in this  
movement, as it will mean much to  
our county in the future. It has  
been proven beyond a doubt, that a  
large percent of our traffic is being  
routed by way of the northern route.

The Highway Association is asking  
Medina County to furnish ten auto-  
mobiles for this caravan. All who  
voluntarily participate in this move-  
ment, please notify some member of  
the Hondo Lions Club. There has  
been considerable time spent by dif-  
ferent ones in Hondo in planning this  
caravan, and it should not be consid-  
ered anyone's individual responsibility  
but the responsibility rests on every  
one in Medina County.

Mr. Dillon attended a meeting of  
the Highway Committee of the San  
Antonio Chamber of Commerce in  
San Antonio last Monday at which  
tentative plans for the Motorcade of  
October 21 were worked out. Mr.  
Dillon found the San Antonio people  
heartily in accord with the movement  
to exploit Highway No. 90 as an at-  
tractive and advantageous tourist  
route west from San Antonio to El  
Paso and intermediate border points.  
The road is a State and Federal high-  
way and the more popular it is made  
the better condition it will be kept  
in, and the better condition the more  
traffic.

It is important that Hondo show a  
proper interest in this movement and  
to that end it is expected that Hondo  
will take proper steps to be credit-  
ably represented in the Motorcade  
and that an impressive crowd greets  
the caravan when it visits our town.  
A large attendance of people in Hon-  
do from its trade territory on that  
day will serve a two-fold purpose of  
informing the public of the import-  
ance of the highway and encourage  
the promoters in their efforts.

If you can do any thing to help  
make the occasion impressive get  
busy; don't "let 'Joe' do it" all. It  
is the whole community's affair. And  
because "they also serve who stand  
and wait," let's not all try to be  
"waiters."

## WHEN—RIGHT

When you want a washing done  
you usually want it right, and you  
want back everything that you send  
—that's what Jennings has provided  
for his customers. Jennings selected  
the Texas Steam Laundry April 1,  
1920, just 9 years ago last April.  
This laundry is a Million dollar con-  
cern and very capable of doing it  
right. You can apply the same  
thought to your Cleaning and Tailor  
work. Also snappy togs for young  
men. 8-tf

## ALL COMMITTEES REPRESENT- ED AT CHAIRMEN'S MEETING OF WOMEN'S DEPARTMENT

Enthusiasm and a determination to  
make a success of the Woman's De-  
partment of the Medina County Fair,  
to be held in Hondo November 9, 10  
and 11 was the spirit that prevailed  
during a rousing meeting held at the  
Chamber of Commerce Hall, Tuesday  
afternoon when the County Chairmen  
with their committees entertained the  
Community Chairmen.

Mrs. C. M. Merrett, Chairman of  
the Woman's Department with her  
Advisory Board, Mesdames Theo.  
Barnes, Earl Boon, H. E. Haass,  
Oscar Miller, R. J. Noonan and W.  
H. Smith in council welcomed the  
visitors and stated the purpose of the  
meeting to be a get-together party  
for the purpose of exchanging ideas  
and methods on how they may best  
serve the department over which they  
preside.

Short talks by County and Com-  
munity Chairmen interspersed by  
piano numbers by Mrs. Cora Busby  
of Devine and Miss Josie Rothe of D'  
Hanis, vocal selections by Mrs. R.  
W. Gaines, Mrs. Horace Bradley and  
Mrs. Earl O'Neal, Misses Ester Saat-  
hoff and Rosa Senne, a saxophone  
number by Ulrich Burger of Dunlay  
and a reading by Miss Marion Brown  
of Devine was the order of the pro-  
gram.

Mrs. Merritt introduced Mrs.  
Fernando Miller of Somerset, Presi-  
dent of Bexar Home Demonstration  
clubs, who holds an enviable record  
as one of the outstanding factors in  
organized clubs of that section. Mrs.  
Miller gave a most entertaining and  
instructive talk, stressing the need of  
hard work and co-operation to make  
for a successful fair. Mrs. Miller was  
accompanied from Somerset by Mrs.  
Ernst, who was recently chosen as  
one of the five Master Homemakers  
of Texas.

Miss Bird Boswell, well known and  
popular Home Demonstration Agent  
of Frio County, was then introduced.  
Miss Boswell gave an interesting talk  
on "What a Fair Means to a Woman  
and Her View Point," and gave the  
exchange of ideas—showing how this  
through comparison and competition  
was of inestimable benefit—as the  
principal thing to be derived.

Mr. Merritt in his talk on "How to  
Build a Big and Better Fair" gave  
the final message full of practical  
carry home. Refreshments of punch  
ideas and help for those present to  
and sandwiches were served to more  
than eighty.

## HOOT GIBSON-RUTH ELDER

Ruth Elder the famous aviatrix  
and first of her sex to fly the Atlantic,  
plays Hoot Gibson's leading lady in  
"The Winged Horseman." It plays  
at The Colonial Theatre, Saturday,  
September 28. That's a couple of  
weeks off and its a real picture, so  
don't fail to see it. 8-1t

## TO COTTON FARMERS.

Owing to the shortage in the cot-  
ton yield our gin will run only on  
Friday and Saturday of next week,  
September 20 and 21. Please bring  
your cotton in accordingly.

## TEXAS & TEXANS

### TEXAS AND TEXANS.

By Will H. Mayes  
Checking a Bad Custom

In many Texas counties the com-  
missioners courts have established a  
custom of issuing warrants of cer-  
tificates of indebtedness in payment  
for court houses, jails, road work,  
machinery, or other things the courts  
care to pay for, without submitting  
the matter to a vote of the people,  
when funds are not available.

Whether this is authorized by law  
or not, it should be stopped. No fu-  
ture indebtedness should be incurred,  
except in case of public necessity or  
emergency, without the people direct-  
ly authorize it by their vote.

The Shelby county commissioners  
hold that such certificates, issued by  
a commissioner for road work and  
material, are not legal and refuse to  
pay such debts incurred by a previous  
administration. The final outcome  
of a suit to recover the amount of  
such a certificate will be watched  
with much interest.

### Airplane Travel Doubles

A reduction in airplane passenger  
rates by a leading transport com-  
pany to about twice the rate charged  
by railroad and buslines quickly re-  
sulted in doubling the amount of  
travel. When air transportation is  
still further reduced and brought  
within reach of the average traveler,  
air travel will immediately become  
the popular method of transportation.

### Teacher's College Buildings

The Sul Ross State Teachers' Col-  
lege at Alpine is erecting a library  
building to cost \$150,000. This school  
has had a hard struggle for legislative  
appropriations sufficiently large to  
keep it growing, but now seems to  
have won its way to recognition as  
one of Texas' most important educa-  
tional institutions. Because of the  
invigorating climate the Alpine  
school should become one of the lead-  
ing teachers' schools of Texas, of  
which the State has more than are  
readily needed.

### Road Educational Campaign

Movements are afoot to "educate  
the people to the need of good roads,"  
which means to secure their favor in  
the matter of a State bond issue of  
some \$300,000,000, with which to  
supplement the present gasoline tax  
and motor registration license, from  
which Texas roads are now being  
built. It is being widely predicted by  
friends of the "educational" move-  
ment that Highway Commissioner  
Sterling will make the race for  
Governor with the bond issue plan as  
the leading plank of his platform.

### Scattering Bluebonnets

Texas bluebonnets should be grown  
extensively in every part of the State  
in which they can be grown. The  
Garden Club of Amraillo has order-  
ed 10 dozen packages of the seed  
from Mrs. J. K. Beretta, Girl Scout  
Commissioner at San Antonio. For  
several years the San Antonio Girl  
Scouts, under Mrs. Beretta's leader-  
ship, have been gathering and send-  
ing out large quantities of bluebon-  
net seeds. The flower has matured  
as far north as Alaska, and under  
careful attention should bloom  
abundantly throughout all parts of  
Texas.

### San Saba Ships Fertilizer

San Saba has a fertilizer company  
that is engaged extensively in ship-  
ping fertilizer products to other sec-  
tions not so fortunate in good soils,  
or where intensive cultivation is prac-  
ticed. The irrigated sections of the  
State are using large quantities of  
the fertilizer, especially in those  
areas where two or more crops are  
grown from the same land each year.

### Labor Dinner Higher

A resort hotel at San Marcos an-  
nounced that its Sunday dinner would  
cost \$1.00 and that its "labor day  
special" would be \$1.25. Evidently  
the hotel people think that the labor-  
er is better able to pay for a dinner  
than the average Sunday diner. Skill-

### MRS. VICTOR BOOG DEAD.

Mrs. Victor Boog, who with her  
husband, died in France during the  
summer, died in Philadelphia last  
Sunday where she and her husband  
had stopped to visit friends on their  
return journey.

Her body arrived home Wednesday  
evening and interment was made at  
D'Hanis.

No further details are available at  
this writing.

The death of Mrs. Boog is pecu-  
liarly sad. She and her husband had  
gone to Europe on a combined visit  
to Mr. Boog's boyhood home and a  
pilgrimage to the grave of their son,  
the late Captain John Boog, who lost  
his life in one of the battles of the  
World War in France. That she died  
before she could reach her home  
makes the home-coming exceedingly  
sad to the husband and other loved  
ones.

ed labor is getting a wage in Texas  
that enables it to buy more of the  
things it wants. The unskilled work-  
man hasn't so much reason for being  
overjoyed on Labor Day. The one  
is usually well organized, the other is  
not. The skilled workman uses his  
brains, as well as his muscle, to best  
advantage.

### Dallas Flight Climbing

The thousands of people who have  
been forced to take exercises in flight  
climbing at the Dallas railroad station,  
for no other apparent reason than to  
get to come down again, are hoping  
that Mayor Tate may succeed in get-  
ting those steep and long stairs re-  
moved. Dallas can't hope to become  
much of a city so long as every visit-  
or arrives and leaves out of breath  
from climbing needless stairways and  
cursing the place.

### Fort Davis Apples

There are not a great many Tex-  
ans who know that Fort Davis ships  
famous Fort Davis "Delicious" apples  
by carload. Orchardists say that the  
apples grown in the Davis Mountain  
section are the finest marketed in the  
United States. Shipments are now  
being made, and the crop is reported  
as excellent. Fine peaches, pears and  
grapes are also grown there.

### Establishing Creameries

One of the largest of the meat  
packing plants is establishing a num-  
ber of creameries and poultry prod-  
ucts plants at favorable Texas  
points. Paris reports having secured  
one of these and Taylor and Austin  
are being considered for another.  
A number of the creamery and  
cheese plants in the State are hav-  
ing to be enlarged to care for the in-  
creased business. The dairy and pou-  
ltry businesses of Texas are growing  
rapidly.

### Hatcheries Prove Profitable

A 12,000 egg capacity hatchery is  
to be established at Smithville by a  
party who is operating similar plants  
at LaGrange, Beeville and Schulen-  
berg. The owner finds that with  
modern equipment the hatching in-  
dustry wherever established is prov-  
ing profitable. The "setting" hen is  
being retired from the business.

### Llano Tourist Park

Llano is much pleased about its  
new hotel, but is also getting ready  
to take better care of those who may  
not want to stop at the modern  
hostelry. The tourist park there has  
been leased to a company that is  
building a number of new cottages  
and a dancing pavilion and establish-  
ing a swimming pool to make stop-  
ping in Llano a delight to the thou-  
sands of visitors who go there every  
season.

### Fredericksburg Hotel Enlarged

When the old Nimitz Hotel at  
Fredericksburg was torn away a few  
years ago and a big three story struc-  
ture erected in its place, the people  
there wondered if it would ever be  
filled with guests. Already it is found  
that more hotel rooms are needed and  
a large addition to the hotel is to be  
constructed right away. It begins to  
look like Texas towns can't get too  
much hotel room.

### Grows 38 Different Crops

A farmer near Runge, who has  
grown 38 different crops on his farm  
this year, is not complaining of hard  
times. A list of his crops reads almost  
like the index of a seed catalogue,  
but the farmer doesn't care for that  
so long as he is able to keep a nice  
bank account.

### Most Distinguished Citizen

The American Legion Posts  
throughout the State are honoring a  
citizen where each post is located by  
presenting him a certificate proclaim-  
ing him the "most distinguished citi-  
zen." Of course, J. O. Smith, editor  
of the Egin Courier and manager of  
nearly everything around town, was  
declared "It" at Egin, although  
many of the city folks thought the  
honor should have gone to Mr.  
Smith's manager.

### TO THE PUBLIC.

I will close down by gin for the  
present season September 10, on ac-  
count of the shortage of crop here  
and the boys having secured employ-  
ment elsewhere.

Thanking you for your past  
patronage and hoping to serve you  
again next season, I am,  
Yours, very truly,

8-1t MRS. J. W. HOLLOWAY

# THE New BUICK

New  
Controlled Servo Enclosed *brakes*

unrivalled for smooth, sure, silent operation in any weather . . .

To Buick, pioneer of four-wheel brakes, now falls the distinction of another major achievement in this same vital field: the development and introduction of Buick Controlled Servo Enclosed Brakes—the most effective four-wheel braking system ever devised for any automobile!

Buick's new brakes are of the highly efficient internal-expanding type. They are fully enclosed—fully protected against dust, dirt and water—and thus assure maximum braking effectiveness under all weather conditions.

They represent the highest development of the self-energizing principle, which makes the car's own motion provide part of the

braking effort.

They reveal unmatched responsiveness to the slightest pedal pressure. And they are so perfectly controlled that "grabbing" is entirely unknown! When you apply these brakes, you obtain the most positive, as well as the smoothest and most silent action you have ever experienced in any automobile!

Drive the new Buick! Test not only its matchless new brakes but its brilliant all-round performance, riding comfort and driving ease—all of which combine to establish the new Buick as the greatest value ever offered in the fine car field!

**MODEL T FORDS**

USUALLY, when a person buys a new Ford from us, he has by no means exhausted the transportation in his old car. We have several bargains in unused mileage in our showroom right now, awaiting second owners. Naturally, the prices are so low that you could easily afford to have one—possibly for that second car which will solve your family's transportation problem.

Model T Fords are thoroughly reconditioned and guaranteed. We also have other makes of cars for second owners—priced according to the unused service in them.

Regarding our used-car prices, remember this: There is no "padding" to care for excessive trade-in allowances, for the price of the new Ford is so low—so close to the cost of production and selling—that there is no leeway for unreasonable trade-in concessions. When you buy a used car from us you pay just what it is worth, and no more. We would hardly care to risk our reputation and good-will by following any other policy.

## LACOSTE LEDGERETS

### From Lacoste Ledger. DIED.

Miss Sophie Haller died at her home near Lacoste at 4:30 A. M. on September 4, 1929, following an illness of short duration.

Miss Haller was born on September 8, 1868, and had attained the age of 61 years and one day at the time of her demise.

The deceased had been complaining of not feeling well since May this year, but never confined to her bed until 21 days before her death.

She leaves surviving her one brother, Wm. Haller and two sisters, Mrs. Emil Mann and Miss Clara Haller.

Her remains were brought to St. Mary's Church Thursday morning, where a Requiem Mass was offered for the repose of the soul of the departed at 9:00 o'clock.

After services in St. Mary's church her remains were carried to the St. Mary's Cemetery and tenderly laid to rest. Rev. James Marsollier performing the last sad rites of the church of which the deceased was a member.

We join the relatives and friends of the grief-stricken brother and sisters in extending to them sympathies in this their hour of sorrow.

May she rest in peace.

### DEVINE NEWSLETS.

#### From The Devine News.

#### REMANDED TO JAIL ON SERIOUS CHARGES.

Alvarista Garcia, a Mexican man, who drove a good car, is said to have money and to be one of the best farmers in the Shookville neighborhood, had an examining trial before Justice Hardeman, Friday and Saturday, on a charge of murder, and a statutory crime, almost as serious, was remanded to jail, Saturday evening, without bond in either case. Several weeks ago, Garcia was investigated on the charge of murder, when he drove home one night, with his dead mother-in-law in his car; but was not arrested as shown that the mother-in-law has been treated for acute indigestion, and Garcia claimed that she died a natural death. Rumors kept going however, and so the local officials decided to have a thorough investigation. Constable Grant made the arrest and Garcia spent two nights in the new jail, as its first occupant; County Attorney D. C. Brown represented the State,

and County Judge R. J. Noonan, the defendant, with the result named above. Garcia's attorney may resort to a habeas corpus proceeding, we were told, to secure bond. Sheriff Schuehle came over from Hondo and took Garcia back to the county jail at Hondo, where unless bond is granted, he will remain until the next grand-jury meets.

Where can you duplicate the style, comfort and convenience of America's finest medium-priced automobile?

Oakland combines a long wheelbase with a short turning radius—giving greater handling ease. Its bodies by Fisher provide such convenience and comfort features as drivers' seats adjustable as you drive, clear-vision easily-regulated VV windshields and side cowl ventilators.

Foot-controlled headlights—automatic spark control assuring correct spark occurrence at any speed—spring covers which add to riding ease by keeping springs permanently lubricated and free from mud, rain and dust—all these are comfort and convenience features which only the All-American in its field combines.

Come in and let us show you how, on every basis of comparison, today's Oakland is America's finest medium-priced automobile.

### Facts Which Prove Oakland Supremacy

The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium-priced automobiles. All told, 878 individual comparisons were made. Of these Oakland proved to be distinctly superior in 451 or 51.37 per cent. The 20 cars combined were at best equal to Oakland on 347 or 43.50 per cent. And 13 of the 20 were higher priced than Oakland.

**FISHER BODY** Only Oakland and two other cars in the field offer bodies by Fisher.

And one of the two is nearly \$100 higher in price than Oakland. Of the 18 cars which have less-known bodies 11 are priced above the All-American Six.

**WHEELBASE** Only one car as low-priced as Oakland has a wheelbase as long as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

Consider the delivered price as well as the list (f.o.b.) price when comparing automobile values. . . . Oakland-Fontaine delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories as financing desired.

There is something about the little word save That preaches a sermon that makes you behave.

The saving of youth conserves for old age, It character builds and makes you broad gauge.

By saving up things you want to buy, Don't get the impression that save is deny,

For by saving you always are amply repaid. It's the way foundation for riches is laid.

**HONDO FOOTBALL SEASON**

**OPENS FRIDAY, SEPT. 20,**

**AGAINST SOMERSET HIGH**

Game to be Played at Medina County Fair Grounds, Starts at 4:00;

Team Ready for Match

The 1929 football season starts next Friday at 4 p. m. when the Hondo Owls meet Somerset High School at the Fair Grounds. Coaches Barry and Broxton are drilling the squad from school out till practically dark every evening in preparation for the opening game. With several more who reported with the opening of school and the development of material already on hand the team is rapidly swinging into shape. The team average in weight is to be higher than it was feared to be when practice started three weeks ago. Captain Don Windrow will probably be the lightest man on the team.

It is the opinion of those who have been watching the boys practice every day that the 1929 team has a good chance to break the three year old streak of losing only one game by going through this year's schedule undefeated.

Preparations are under way for a grand opening of activities on the 20th. Miss Shaw is drilling 32 girls of the Owl Pep Squad. The girls will appear at the game in uniform. The yell leaders for this year are Ulbrich Burger and Regina Nester, who were chosen by popular vote the first week of school.

Edward Taylor has been appointed student manager of the team. Edward is scholastic ineligible for football but is practicing with the team daily and receiving training for next year.

**ST. PAUL'S LUTHERAN CHURCH NOTES.**

Next Sunday, September 15, Sunday school will be conducted as usual, but there will be no church services, since the pastor will preach at a mission festival in Bishop.

Our own mission festival will be held on Sunday, September 22, with German services in the forenoon, and English in the evening. All are welcome to attend these services.

## QUIHI NOTES.

"Seek ye first the kingdom of God, and His righteousness! and all things shall be added unto you." Matt. 6, 33.

Regular divine service will be held in Bethlehem Lutheran church Sunday morning at 10 o'clock. All are cordially welcome at this and all services in this church.

Sunday school and Bible class in Bethlehem Lutheran church Sunday morning at 9 o'clock. This Sunday school is open to both old and young; all are welcome.

Sunday night at 7:45 o'clock the Quihi Luther League will render a fine program in Bethlehem Lutheran church. The selection of choice musical and literary number scheduled to be given will doubtless prove both interesting and entertaining. All are cordially invited to come and hear and enjoy the program to be given. Following the program the League will hold its regular monthly meeting. All members should be present to enter their names in a "Forget-me-Not."

Last Sunday afternoon the infant daughter of Mr. and Mrs. Jesse James Saathoff of San Antonio received the sacrament of holy baptism in the Quihi Lutheran church. The young lady received the name of Mary Joice and for her sponsors an uncle, Andrew Oefinger, and an aunt, Mrs. Oscar Baeder, as well as her paternal grand mother and maternal grandfather and others as interested witnesses.

Rev. Hasskarl, the pastor of the Quihi Lutheran church, will be absent from home several days next week to attend the meeting of the Yorktown Conference, which will be held at Robstown on the 17 and 18.

## LIONS CLUB.

Hondo Lions bid farewell to Miss Esther Saathoff who has been pianist for the summer months. Mr. Henry Merriman presented her with a pretty beaded bag in behalf of the Club as a parting gift. At the same time all Lions were glad to welcome Miss Watson back, who will be the only Lioness for the following months.

The speaker for the day was Mr. Gus Reininger. The subject which he discussed is printed elsewhere in this paper.

A report was given on the yard contest and the winners were announced. The judges reported that Hondo had a good many beautiful yards and hoped they would be kept up.

Our President, Lion Dillon, was appointed to take charge of the caravan which will go from San Antonio to Alpine representing Highway No. 90. Everyone who can, be sure and let Lion Dillon know if your car can go.

## THE LUCKY ONES.

Following a week of extensive buying and spirited voting, the Judges last Monday night counted the votes and awarded the prizes to the successful contestants.

The prizes are attractive and useful ones and in the aggregate amounted to over a hundred dollars in value.

The following are the winners of the Diamond Jubilee Sale at Windrow's Drug Store. Miss Frances Finger, toilet set; Miss Hedwig Leinweber, Cody set; Miss Charlotte Miller, fountain pen set; Miss Mary Lois Barnes, stationery set; Miss Dorothy Ulbrich, Peach Blossom set; Mrs. J. L. Mechler, rubber goods set; Curly Mechler, gent's leather set;

The Diamond Jubilee sale was a grand success in every way and the contestants are very much pleased over their prizes.

## FROM NEW FOUNTAIN.

The Woman's Missionary Society of New Fountain will give a Dramatic Pantomime in the New Fountain Church on Friday night, September 20, beginning at 8 o'clock. This Pantomime consists of 11 scenes with 12 different characters, and will show the life of man from his earliest childhood to his death; mother and home will play a great part in this program. It will be interspersed by songs and readings and will have a great effect upon the audience. After the program hamburgers, ice cream, soda water and home made candy will be sold. Everyone is cordially invited and we assure you that you will greatly enjoy this program.

Last Sunday night we closed one of the best revival meetings that has been held in New Fountain for years. Rev. F. W. Radetzky from Frederickburg brought untold blessings to our people by his earnest, excellent and instructive preaching. People from far and near came to hear him and every night the church was crowded with attentive hearers; also the morning services were very well attended. The whole congregation has been revived. Our large church choir and the orchestra helped very much to make the meeting a success.

So far 11 persons have joined our congregation by profession of faith during the last few weeks, 3 of these joined last Sunday morning.

We also thank our many friends that came from night to night as visitors to hear the great gospel of Jesus and his love.

The pastor and his family have been greatly pounded by a good many of our members during the last week which we and also Rev. Radetzky enjoyed and appreciated very much.

ROBT. MOERNER, Pastor.

## G. A. MEETING.

The G. A.'s met in the home of Lillian Schroeder September 4 for a regular monthly program in the "World Comrade." The program, with Donia Merriman in charge, was very well rendered. After the program, delicious refreshments consisting of snow pudding and angel food cake were served by Ruth Shelton and Lillian Schroeder, hostesses.

The following attended the meeting: Mrs. Dillon, Gladys Fusselman, Eleanor Heyen, Anne Crabtree, Ruby Neuman, Donia Merriman, Evelyn Kimmy, Margaret Dillon, Leota Pettis, Ruth Lee Shelton and Lillian Schroeder.

## J. B. HOLLOWAY DEAD.

After an illness of several months, Mr. J. B. Holloway died at his home in LaGrange Monday.

Mr. Holloway was the father of Mrs. H. J. Meyer and Messrs. Will, Tom and Leslie Holloway of this place, has been a frequent visitor to Hondo and become intimately acquainted and made friends with many of our people, all of whom grieve at his passing.

All members of the deceased's family from here attended the funeral at LaGrange Monday.

## B. Y. P. U. PROGRAM.

"Some Results of National Prohibition" is the topic to be discussed at the B. Y. P. U. Sunday, September 15. Various members of the union will give short talks on subjects that have been effected by prohibition. The order of the program is:

Increased Production by Lillian Schroeder.

Better Clothing, George Wilson.

Decrease in Crime, Donia Merriman.

Material Prosperity, Dorothy Ulbrich.

Better Health of the Nation, Ruby Neuman.

All are invited to attend the meeting at 7:20 at the Baptist church and hear the opinions and viewpoints of the generation that must solve the question on the nation's greatest problem, prohibition.

## W. M. U. MEETING.

The W. M. U. met at the Baptist church Thursday afternoon for their regular monthly meeting and election of officers for the year. Mrs. Marvin Beal acted as chairman of the meeting and took charge of the vote in which the following were elected:

President, Mrs. Albert Nelson; vice-president, Mrs. Newell Woolls; sec'y-treasurer, Mrs. Henry Crow; personal service director, Mrs. Marvin Beal; young people's work, Mrs. Joe Dillon; educational chairman, Mrs. H. C. Hyatt; publicity chairman, Miss Fanye Carle; mission chairman, Mrs. Jim Fusselman; methods and finance, Mrs. Jack Fusselman; mission study, Mrs. Joe Dillon; benevolence chairman, Mrs. Mulcahy and Jr. G. A. and R. A. counselor, Mrs. Roland Gaines.

## CARD OF THANKS.

I wish to thank my friends and neighbors, and especially the members of the Volunteer Fire Company, for the prompt assistance given me in the recent fire. But for your timely and generous help it might have proved far more destructive.

Gratefully yours,

For some reason, the prizes in the "Yard Beautiful Contest" were announced Monday, September 9, instead of closing as originally announced on December 1, 1929.

The sweepstakes prize was \$25.00 cash, and was given by the Lions Club. Three other prizes were given.

Following are the results of the yard beautiful contest: sweepstakes prize, front and back yard, Mrs. J. W. Holloway; front yard, A. G. Holloway; back yard, Henry Merriman; Churches and schools, Hondo High School. Honorable mention must be given to Horace Bradley's front yard, which scored perfect on the last grading, but failed to place on the first grading; to Henry Merriman's front yard; and to C. M. ## MR. REININGER BEFORE LIONS CLUB.

Mr. Gus Reininger, Manager and Field Operator of the Texas League for Equal and Uniform Taxation, Inc., spoke by invitation before the Lions Club at its noon luncheon Monday.

Among other things Mr. Reininger said:

The rural aid law passed by the last Legislature, cuts out all the small schools of Texas from participation in the distribution of the aid fund. We believe that every item of the public school funds of Texas belong to the childhood of the State, and each child has a right to an equal share, not only in the length of term, but an opportunity to receive instruction at the hand of an equally competent teacher.

We believe in the principle of Rural Aid Bills, fairly administered, but the bill recently passed discriminates against the childhood citizenry who innocently and blamelessly reside in small districts. There are many features of the bill which are legally outside of the law.

The Texas League for Equal and Uniform Taxation, is preparing to take the rural aid law as passed by the 41st Legislature, into the courts of the State, and there determine the constitutionality of the Act. This of course, will require funds which can only be secured by voluntary subscription upon the part of those whose interests are heavily involved, and in order to secure for your children and the other children of the State, the pro-rata proportion of the aid fund, it is unavoidably necessary to make the fight for these rights in the courts of the State. It is your fight and your child that is involved. Will not you assist and co-operate in this worthy cause?

The fact that Medina county with 2,451 scholars in the common schools received but \$27,180.00 during the thirteen years the law has been in force, and the further fact that Hood county with 1,162 scholars in the common schools received during the same period the sum of \$56,244.00. Van Zandt county received the sum of \$350,494.00 with 5,618 scholars in the common schools, Hopkins county received the sum of \$304,236.00 with 5,942 scholars in the common schools, should be convincing evidence that the law under the present provision or rule, is operating as a monster piece of class legislation, and in direct conflict with the provision of the constitution.

As a business proposition we are asking you to aid us financially by subscribing a helpful sum for the purpose of defraying the expense of preparation for legal proceedings and the expense of litigations in connection therewith, which will shortly be filed in one of the district courts of Bexar county.

Prof. W. N. Saathoff, Hondo, Texas, will receive and forward your contribution.

## "IN THE PAPER"

He put it in the paper when the little ones were born,  
He made a local of it when one early autumn morn  
They started off to school and when the holidays came 'round  
He had a little story, and when Joe and Mary were found  
To have led their classes there it was reported in a squib  
That they were just "the brightest kids that ever were"—the fib!  
And when they went a-visitng, right on the pers'nal page  
Was mention of it neat and nice, and till they grew to age  
The paper told their birthdays; and when Joe and Mary agreed  
To be married the announcement, it was printed with a need  
Of the finest sort of compliments! And so year after year  
The paper spoke in friendly way, would mention them . . . It's queer  
They never once have thought to call with word of commendation,  
In person give the paperman their real appreciation!

—D. G. BICKERS.

There is a "Death Chamber" in the FLY-TOX factory. This chamber is about the room size. It is used to test the quality of FLY-TOX as a spray to kill flies, mosquitoes, bedbugs, roaches, etc. During a test a large number of young, healthy insects are placed inside the cabinet. These insects are raised in incubators for testing purposes. While the insects are flying and crawling around in the "Chamber of Death," FLY-TOX is sprayed inside. Less than a teaspoonful is used. Instantly there is a change. Within five minutes not a buzz is heard. All insects are dead. To make sure they are really dead, the insects are carefully removed from the "Chamber of Death" and placed in incubators in an effort to revive them. If a wing flutters, the FLY-TOX tested never leaves the factory. This test is your guarantee of FLY-TOX quality. It does what you want it to do—kill insects in and about your home. Yet, FLY-TOX is positively harmless to people. FLY-TOX was developed at Mellon Institute of Industrial Research by Rex Research fellowship. It will not stain. Has a delightful perfume-like fragrance. There is only one FLY-TOX insist upon the genuine in bottles with blue labels.—Adv.

## GREATEST SHOW ON EARTH COMING TO THIS SECTION

Ringling Bros. and Barnum & Bailey  
Circus Announces Early Appearance.  
Only Five Ring Circus in the World.  
Thousand and One Wonders to be Seen

After all there is but one great circus. And now comes the announcement that Ringling Bros. and Barnum & Bailey's "Greatest Show on Earth," will soon visit this vicinity, with all its myriad of wonders when it exhibits in San Antonio Monday, September 23.

The advance advertising car heralding the appearance of this wonder of wonders is now in this territory and its gaily colored lithographs blazon forth throughout the countryside.

Coming on 100 double length railroad cars, carrying its entire complement of 1600 persons and 1000 animals. The Big Show will exhibit such stars as Zachinni, "The Human Projectile," fired bodily from the mouth of a cannon; Goliath, the five-ton Sea Elephant; the combined Walenda-Rellmut Troupes, daring artists on the high wire; Con Colleano, greatest of tight wire performers; Miss Lillian Leisel, most famed of all female aerialists; the Flying Codonos, led by the intrepid Alfredo, Maximo, the finest of wire acts; the Rieffenachs and Enrestos, greatest of equestrians, and many others from these and foreign shores.

There are more new foreign acts than ever before with the Big Show and performances dazzling with splendor and magnificence are presented twice daily. The Ringling-Barnum Circus is the only five-ring circus in the world.

## CITATION BY PUBLICATION

THE STATE OF TEXAS  
To the Sheriff or any Constable of Medina County—GREETINGS:

YOU ARE HEREBY COMMANDED to summon Emil F. Huth, Lydia Huth, his wife, Alex May, Jr., South Texas Lumber Company, Harry C. Hermance, J. C. Renaud, The Witherspoon Oil Company, J. C. Marmion, E. J. ## HEAR THE EDISON PROGRAM.

Anita Loos, Who Started the Question 'Blonde or Brunette', Picks Music for Edison Radio Program  
Favorite Music of Famous Authors to be Broadcast Monday Night.

"And men learned about women from her," is true of Anita Loos, who overnight leaped to fame as the author of "Gentlemen Prefer Blondes." Her popularity as an author was increased by the sprightly sequel "But They Marry Brunettes."

With her husband, John Emerson, this quiet, demure young writer had prepared movie scenarios for many years before she wrote the laughable adventures of her blonde and brunette characters.

Anita Loos has announced her retirement and intends to take up residence in Vienna. Before leaving for Europe she selected her best loved music for broadcasting on the Edison Radio Concert given by Thomas A. Edison, Inc. This popu-

lar Monday night feature on the coast-to-coast NBC network is known as "The Favorite Music of Famous Persons" and has already featured the best loved music of Sergeant Alvin York and Douglas Fairbanks. The Edison program is broadcast every Monday evening through radio stations KWK, St. Louis; WREN, Kansas City and KDDA, Denver.

Nothing good can be said of rats. The United States Department of Agriculture estimates that on the average every rat in the United States does damage amounting to fully \$2 a year, and that there are at least as many rats as human beings in this country, altogether too many rats levying this tax on national production. Their economic wastefulness requires vigorous measures for their control.

In addition to the physical damage rats do by destroying food and property, the Bureau of Biological Survey points out that they are a serious menace to the health of the Nation. Rats are known to spread trichinosis and to carry bubonic plague and other diseases, either directly or by means of the fleas that live on them.

It is not easy to kill rats. They avoid their natural enemies and they are careful and cautious. If their suspicions have been aroused they refuse to eat many tempting bits of food containing rat poison. Poisons set for rats sometimes have killed other animals or children. Phosphorus is a menace, as it may set fire to buildings or field grasses. Arsenic and barium carbonate are dangerous to other animals. Thallium is particularly dangerous and it is costly, as the supply is limited.

Red-squill powder, in the opinion of the Biological Survey, is, if properly used, one of the most satisfactory rat poisons now known. Cats, dogs and other animals usually refuse to eat the material because it causes a tingling and irritation of the throat. It is full of small crystals of calcium oxalate. Rats pay no attention to this feature. It poisons rats, but chickens can eat it without harm. It is a brown powder and can be mixed with the feed the rats ordinarily favor.

#### TIME SOON HERE TO PLANT SMALL GRAIN PASTURES.

Pointing out that oats, barley, rye and wheat are all valuable winter crops for livestock and poultry in most parts of Texas, as well as serving a very useful purpose as cover crops to hold available plant food in the soil, E. A. Miller, Extension Agronomist, suggests early sowing of these crops to get the most out of them. Experience has shown, he says, that small grains sowed by the middle of September furnish more grazing than crops seeded later.

To get early pasture these crops may be drilled between cotton or corn or grain sorghum rows with a small grain drill, or may be broadcast and then covered by use of a fine-tooth one-row cultivator, harrow or other scratcher. Seeding should be thick, at the rate of about 90 pounds per acre, if grazing is desired.

When the crop is to be saved for grain or hay as well, it is advisable, Mr. Miller states, to spray oat or barley seed with a formaldehyde solution at the rate of one pint of formaldehyde to ten gallons of water, to prevent smut. This amount will be enough to treat 40 bushels of seed. After spraying, the seed should be shoveled over two or three times, placed in a pile and covered with a wagon sheet for several hours. It may be sowed without further drying.

Wheat smut is controlled by the copper carbonate treatment. The seed is placed in a tight container so arranged that it can be revolved on an axis. From two to three ounces of powdered copper carbonate should be sprinkled on every bushel of seed and thoroughly mixed by revolving the container.

## WHO CONTROLS CORPORATIONS

By P. A. Spain, M. D.

A splendid editorial in the Dallas Craftsman says: "The power of controlling public credit cannot properly be delegated to private individuals." This is right, but such power IS in the hands of private corporations, and has been ever since our banking system was first established.

The power over public credit cannot be anywhere else so long as we continue under a private money system. Our money system is all owned and controlled by private capital and under our constitution the private citizen can do as he chooses with his individual funds.

The editorial still further says "corporations must be controlled." This cannot be done until we inaugurate a government money system under which the government can be independent and control its own funds, and not be dependent upon the funds of the various corporations it

seeks to control.

The United States can control no trust or combine, because they are all the children of the Federal Reserve system which is lord over all.

The Federal Reserve money system is not an agent of the United States government as it functions through congress, it is an agent of the Federal Reserve System. This should not be.

The United States does not control the Federal Reserve System, but the system controls the United States. This should not be. Our people and their government cannot lend or contribute money to any enterprise until they first borrow it from the Federal Reserve System.

The United States Government cannot be a free and independent

government until it establishes its own money system. This cannot be done until the people elect men to congress who are willing to oppose the Federal Reserve system, and are willing to set up an independent money system of their own making.

This editorial further says, "corporations interfering with proper circulation of currency, should not be favored by the federal government at the expense of the American people." This is true, but the federal government itself at the present is merely a tool of the reserve money system which is the main big corporation that is interfering with the proper circulation of currency.

We cannot reasonably expect the Federal Government to turn around and properly control the crowd that

is furnishing it with all its means of "carrying on." The dog cannot control the master who feeds him. The slave cannot control the policies of his owner. The agent cannot be expected to control the head firm which owns and handles the funds.

The money by which the federal government functions, belongs wholly to the big federal corporations, and the federal government cannot get it except by complying with the terms of the Federal Reserve Board, and this Board is doing business for its own profit, to be taken from the people, and not for the benefits to be extended to the people.

The people, the farmers and laborers, must elect a new congress charged with the duty of forming a money system for the benefit of the people. Have we no statesmen on whom we can depend to accomplish such purpose?

#### HOW TO SELECT STALK FOR NATIONAL COTTON SHOW.

Ability, or at least indications of ability, to produce large amounts of a quality product, is the basis of award at all agricultural fairs. This is true whether the entries are dairy cows, swine, chickens or field crops.

Heavy production of quality cotton should be the ambition of all cotton growers. The One-Stalk Cotton Show to be held under the auspices of the Sears-Roebuck Agricultural Foundation, and The National Fertilizer Association, in connection with the Mid-South Fair at Memphis, the South-eastern Fair at Atlanta, and the State Fair of Texas at Dallas, was inaugurated to stimulate interest in economic production of better cotton. Prizes totalling several thousand dollars are being offered.

In judging the single stalks at the show, a score-card which has been prepared by some of the leading cotton authorities in the South will be used. This score-card has been carefully prepared in order to give proper weight to the various plant characters. Actual judging will be done by competent authorities from each section.

According to the score-card, a perfect plant would score 100 points total score. Since productivity of the cotton stalk is probably of greatest single importance, production, as measured by the amount of seed cotton on the plant, is given a possible 35 points. Thus heavily fruited stalks would secure a high rating under production.

A possible 25 points has been allotted to lint. Percentage of lint in seed cotton, length, character and uniformity, strength and color, are all

Mr. and Mrs. C. A. Tate of Stoneville, Miss., Winners of Sweepstakes Prize in National Cotton Show, 1928.

factors that will be considered in studying the lint. The plant, as a whole, has been given a possible 20 points. Symmetry of form, amount of wood in proportion of fruit, character of branches, and maturity, are considered in studying the plant unit. Character of bolls has been allotted a possible 12 points. Size of bolls will be considered and well

opened bolls are desirable, although a certain amount of storm resistance is also to be desired.

Seed has been allotted a possible 5 points. Plump, heavy seed, uniform in size and color, are desired.

Freedom from disease has been given a possible 3 points, making a total of 100 points.

Any farmer, whether landlord or

tenant, white or colored, or any one member of his family, will be allowed to enter a single stalk for competition. Only one stalk may be shown. The stalks exhibited must be grown from each farm unit.

The stalks exhibited must be grown in 1929.

Stalks must come from a field where at least one acre of cotton was grown in 1929. However, any spacing, fertilization, protection or cultural practice may be used.

Stalks shown must contain the cotton that grew on the stalk. Picking and refilling will not be permitted.

Branches must not be cut from stalks exhibited. All leaves must be removed.

The name of the variety must be shown on the stalk.

Exhibitors need not necessarily accompany exhibits, but may ship same, charges prepaid, to the National One-Stalk Cotton Show, in care of the fair in their districts. Entrants living in Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida should enroll by sending their names and address to The National Cotton Show, Atlanta, Ga.; those in Oklahoma and Texas to The National Cotton Show, Dallas, Texas; and those in Tennessee, Mississippi, Arkansas, Louisiana, Missouri and Kentucky to The National Cotton Show, Memphis, Tenn.

The premiums for the best single cotton stalks include \$1,000 as total prize, including sectional award, for the best stalk of cotton in the South. Premiums at the three sectional fairs at Atlanta, Memphis and Dallas follow: first \$500 at each fair, second \$300 each, third \$200 each, fourth \$100 each, fifth \$50 each, sixth to tenth inclusive \$25 each, eleventh to twenty \$10 each.

### OWLS LOSE HOMER ROTHE; JONES, STAR FROM KNIPPA, REPORTS TO COACH BARRY

The handicap caused by losing Homer Rothe was somewhat lessened when Glynn Jones, who has recently moved here from Knippa, reported for football practice Monday. Homer, a four letterman and star of last year's team, was a victim of the new 10-semester rule which went into effect the first of the month.

This new ruling states that any one having attended public school for 10 scholastic semesters is ineligible to participate in any inter-scholastic games. When checking over the records of his squad, Coach Barry found that Homer was starting his eleventh semester thereby being unable to further indulge in high school athletic activities. Hard as the loss is to the team, it is better to have the misfortune now than later in the season when losing teams start looking for grounds for a forfeit.

Coach Barry will try to develop G. Jones to fill Homer's place. Jones, while famous for his athletic activities at Knippa, has never played scholastic football before. Glynn brings several honors to Hondo with him, having captained the Knippa basketball team to district championship and taken first place in the 440-yard and second in the 100-yard dashes at the district meet last year.

### IN OUR DISTRICT

Although only 19 reported to the coaches on the first day of practice at Uvalde, Coach Norman Douglas and assistant coach Jimmie Green are not discouraged, in fact Coach Douglas said he was well pleased with his material for the coming year.

Los Angeles Heights of San Antonio, who plays Hondo here on the 27 of this month, is being coached by Cecil Burnett, last year a member of the Main Avenue coaching staff. Burnett has cut his team to 30 and expects to take the championship of his district for Class B teams.

At Del Rio Coach Anthony is putting his squad through a three hour drill, daily. Scrimmage was started Wednesday in preparation for the opening game to be played against San Angelo. Cope, veteran center, has also reported to the Wildcat coach.

### OFFSIDES—NO GOAL!

This column is to be the personal column of the football team of Hondo, the Owls, and will let the world know that the battle cry is—Owls First. Now and Forever. The author shall remain secret as it (the author) has no desire to meet in personal combat with any of the present members of the squad. They are hard as nails after three week's practice.

Bradley Bailey, who fractured a small bone in his right arm several weeks ago, was out for practice on Monday.

The next time mother starts fussing about the evils of football, just

give her the following information. Since starting football practice one member of the team has gained six pounds and it's not fat. The team as a average has added pounds.

Quoting Glynn Jones:—There was not enough boys to form a football team at Knippa so I didn't get to play any, but this year I am going to give it—well, all I got.

Russel "Shotgun" Speece knocked a finger out of place during scrimmage the other day, but Coach Barry turned doctor and the little warrior was back in the midst of it within five minutes.

The general feeling on the team concerning the loss of Rothe is—we were sorry to lose Homer but we are going to try and make the coaches forget him by our working that much harder.

As brother and Dad were talking about football, sister came into the room and hearing them mention play several times she demanded to know where it was to be given.

Some of the gang claim Vic Murry is a little rough and careless with his hands on the defense. Looks like Vic is improving; last year he wouldn't use his mitts on the offense.

George Wilson was out for almost a week with a bad ear. Although he didn't injure it practicing football, hope this isn't the start of an injury flax.

### IN LOVING REMEMBRANCE OF LITTLE HOWARD HENRY WIEMERS.

Left us! Yes, forever more, But we hope to meet our loved one On that bright and happy shore. Lonely the house and sad the hours, Since our dear one has gone, But oh! a brighter home than ours In Heaven is now his own.

A precious one from us has gone, The voice we loved is stilled, A place is vacant in our home Which never can be filled, God in His wisdom has recalled The boon His love has given, And though the body slumbers here The soul is safe in heaven. Dearest Howard, thou hast left us And our loss we deeply feel; But 'tis God that has bereft us, He can all our sorrows heal. Yet again we hope to meet thee, When the day of life is fled, When in heaven in joy to greet thee Where no farewell tears are shed.

By his aunt,  
MRS. M. F. W.

Stating the Fact—"We don't want your opinion; simply state the facts in the case and let it go at that," the judge instructed a witness.

"You drove a wagon?" demanded the prosecuting attorney.

"No."

"But you said you did, a moment ago."

"I did not."

"Now, on your oath, do you drive a wagon?"

"No."

"Then what is your occupation?"

"I drive a horse."—Ex.

### MATING THE BREEDING STOCK FOR FALL HATCHES.

By Mrs. Irvin Pickle.

Poultry raisers who aim to get the most out of their hatchings and brooding equipment as well as their high priced breeding stock will want to raise some fall chicks. Pens for producing the hatch eggs should be selected and in their quarters by the first of August, then the incubation can be started by September first, if not earlier.

When selecting stock for the breeding pens select only strong, healthy, vigorous birds that come the nearest up to the standard of the particular breed you are raising. Strong, vigorous, healthy chicks come only from such mature birds.

A good clean eye, smooth bright plumage, red comb and wattles and a good appetite are pretty good indications of a healthy bird. The first to get off the roost in the morning and last to go on at night are to be preferred as this is another indication of health and vigor.

The strongest chicks are to be had by mating mature cockrels with yearling hens and cock birds with mature pullets. If you want to improve the laying qualities of your flock there is no better way than to raise some fall and winter chicks because these chicks can be hatched only from eggs laid by hens in the fall and winter and as "like begets like" in the poultry business just the same as in anything else, you will raise a flock of fall and winter laying hens that will shell out the eggs when they are 15 cts. per dozen and feed the same price it is in the fall and winter when eggs are 65 cts.

In mating the birds, such as the Orpingtons, Wyandottes, Rhode Island Reds or Plymouth Rocks use one male to ten females. The best hatches I ever had with the heavier birds was when I used one male with six females. Almost every egg would hatch.

With the lighter birds such as Leghorns and Minorcas, one male to fifteen females is about right. If allowed free range one male is sufficient for twenty to twenty-five of the smaller birds.

Make the breeding stock hustle and work for all their feed. Allow them free range if possible. Spade up fresh earth for them to work in each day. If the breeders are moved to the fields and allowed to run on the fresh plowed soil and range over the growing crops it will be mighty fine for them and the crops too. The crops will not be injured by them at this stage of growth and the fowls will find lots of insects that are an injury to the crops and a help to the fowls—and reduce the feed bill, too. When given such a location give them just enough grain to keep them in good condition, plenty of cool fresh drinking water, good shade, grit and oyster shell. By keeping up the variety of the breeding stock you will get more fertile eggs and eggs that will hatch strong vigorous chicks that will grow fast and develop into well developed cockrels and large, early maturing pullets.

### ERADICATION OF POISON IVY WORTH WHILE NEAR HOMES.

If poison ivy grows near the house or in near-by paths or roadways, the best way to avoid repeated cases of poisoning is to eradicate the plants. This is not easy, because the weed spreads by means of creeping, underground stems, and new shoots will arise from them, if the plant has already been cut to the ground.

It is preferable, in undertaking the eradication of poison ivy, to employ the occasional persons who are practically immune to ivy poisoning, says the United States Department of Agriculture. Workmen unfamiliar with the plants should be warned of the risk involved and advised that leggings, long leather gloves, and heavy work shirts offer considerable protection, but that all clothing coming in contact with the plant should afterwards be removed and thoroughly washed before using again. In burning dried, uprooted plants, care should be taken to keep away from the poisonous smoke.

Of chemical methods for killing poison ivy, the department states: "Common salt and oils are easily obtained and fairly effective. If all the leaves can be reached by the solution, one of the most useful methods of killing the leaves and fine stems of poison ivy is to spray them with saturated salt solution." an advantage of the spraying method is that one may avoid direct contact with the plant. The spray solution is prepared by adding about 3 pounds of common salt to a gallon of slightly soapy water. The first spraying is most effective if done not later than the end of June. As one spraying will not kill the main stems and roots, the plants should be sprayed again as soon as the new leaves are about full grown. Sometimes three or more sprayings are required.

Crank-case oil thinned with kerosene also is an effective spray; but care should be taken to keep the oil away from the bark of valuable trees. Ivy climbing on trees may be cut off above the ground, and new plants that arise from the roots may be pulled up or killed with the spray.

In fields, a thorough plowing followed by a crop that requires frequent cultivation, such as corn or soy beans, will usually dispose of the poison ivy. Livestock, particularly sheep, will assist in the eradication of this weed, for they browse on the plant without harm.
